SILENT POOL GIN

THE DATA

Category: Gin/Genever

Sub-Category: Gin

Origin: England

Retail Price: \$59.99

ABV: 43%

HOW TO ENJOY IT

The Silent Pool Gin is very versatile working well in most of the classic Gin cocktails. We like it with soda and a squeeze of fresh lime as this allows the complex flavors to shine. Ultimately we don't want to mask the flavors.

COOL FACTOR

A

We at BevX love Gin of all styles. The Silent Pool Gin is among the most unique Gins that we have tasted and it's absolutely delicious. **Grade - A**

ANALYSIS

Silent Pool Distillers is an artisan distillery located on the Albury Estate at the foot of the Surrey Hills in England. Silent Pool is made with a unique four-stage process that utilizes different methods of extracting essential oils based on the total oils and heartiness of the botanical. In all, 24 botanicals are used including two varieties of juniper, kaffir lime, lavender, grains of paradise, and many more. It is a true craft product requiring a hands-on approach from beginning to end.

VALUE GRADE

Selling at nearly \$60 a bottle this lovely Gin won't find the bargain bin but it will find itself in tasty cocktails in top bars and restaurants.

C+

Grade - C+

TALKING POINTS

FROM SILENT POOL

Drawn by a common passion for craft distilling, a group of friends came together to create a new kind of distillery, producing handcrafted, artisan spirits with uncompromising quality.

IN THE GLASS

Appearance: Brilliant, crystal clear.

Aromatics: The nose is amazingly aromatic with waves of bright juniper supported by generous notes of dried flowers and citrus with a subtle sweet honey accent.

Flavor: The palate echoes the nose delivering a dense and nearly chewy juniper-forward spirit with an impossibly complex mélange of spices in support finishing dry with a faint earthy tone.

Intensity & Texture: Full-bodied with gusto to spare being both assertive and elegant while ultimately finishing dry.
