BEVX REPORT

VERMONT SPIRITS COPPERS GIN

THE DATA

Category: Gin
Sub-Category: American Gin
Origin: Vermont, USA
Retail Price: \$28.99
ABV: 42.5%

HOW TO ENJOY IT

Sip simply chilled or enjoy in the perfect classic Gin Martini. This **beautiful and complex Gin is complete on its own** so are hesitant to add much to it. However, it does make a great Gin & Tonic.

COOL FACTOR

A

I have been a fan of the Vermont Spirits since their **founding**. The Coppers Gin is rich and complex with a beautiful integration of botanicals.

Grade - A

ANALYSIS

The Coppers Gin is named for coins issued by the Republic of Vermont in 1785. This expressive American Gin is distilled with wild juniper berries picked in Northern Vermont along with coriander, angelica root, cassia, orange peel, and cardamom pods. **The spirit itself is wonderfully lush while vibrant with bright acidity and fresh citrus accents.** So many craft Gins seems to have the botanicals externally attached while the Coppers Gin presents a beautifully made seamless spirit.

VALUE GRADE

In the upper \$20 range the Coppers Gin is well inline with high quality craft Gins made in America.

Grade - B

TALKING POINTS

FROM VERMONT SPIRITS

The idea was to distill a spirit which would be recognizable to Gin lovers, made with local botanicals using our own small-batch production techniques.

IN THE GLASS

Appearance: Brilliant, crystal clear.

Aromatics: The aromatics are alluring and complex with orange peel on near equal footing with the juniper supported by coriander and cardamon giving a slight Indian spice feel.

Flavor: The palate echoes the nose delivering a rich and silky grain spirit core infused with vibrant juniper and citrus with enough acidity to add lift and brightness.

Intensity & Texture: Medium to full-bodied with a velvety core spirit with the botanicals seamlessly integrated while being perfectly balanced.
